

Coding with Room 5

On the 21st of June this year, the year 6 students went down to room 5 to teach them how to use Scratch Jnr. Scratch Jnr is a coding app we've been working on since the start of the year.

We showed room 5 how to create a new project, add a background, select a new sprite and how to make the sprite move. We want to do it again in a different class!
