

## Room 12's Brownes' Dairy Excursion

One Thursday we went to Brownes' Dairy. When we got there we ate our lunch. After we went inside and watched a video about milk, yoghurts and all sorts of other things. After that we went outside to see a cow. Then we all went somewhere else to look at some factory stuff. There was a room that is very cold it's like an ice block. They told us that if you worked here you're not allowed to wear jewellery and your hair has to be in a bun. Then you put this weird hat on. If you have a beard you had to put on a weird beard mask and you had to wear these clothes that were like patient clothes for a hospital. It was very weird. After that talk we went and tasted some yoghurts. There was banana, natural and raspberry. I really loved the banana yoghurt. After tasting the yoghurts, we went back to the mat to talk about more stuff about dairy farms. Brownes' dairy was really fun. **From Freshta**

On Thursday the 6<sup>th</sup> of September at about 11:00 we all got on the bus and I sat next to Sharon which is Isaac's mum. When we got there we all had to eat or lunch. I sat with Blake and Isaac. When we went in. Our guides name was Farmer Damien. We sat on the mat and watched a video of how they milk cows and how it's made. After the video we went to see a cow named Moo. I asked three questions, one of them was how many hay bales does it eat? and the answer was 2 hay bales a day. Next we went to the factory part, when we got there the first thing we did was go to the testing kitchen and we got to eat different types of yoghurt - there was vanilla and banana and blueberry. Next we went upstairs and saw how they make yoghurt. Then we kept walking and got to see how they make milk. Next we got to milk the cow which was really cool. **By Jason**
