

Green Warriors

This year the year 2s from Room 14 and the Year 4s from Room 9 have been working together to set up the vegetable gardens with the help of Tammy our school gardener. We are also writing a journal to show the progress of our bush area, vegetable gardens and chickens.

Our Vegie Garden

On Wednesdays we get together with the Year 4's and we are called Green Warriors. At the start of the year we went out to our vegie gardens and started to pull out the weeds.

Then Tammy put new soil in the garden beds. The soil looked dark, clean and black. Once Tammy had put the new soil in, Mrs Mason and Mrs Hoey bought seedlings and seeds. After that we planted the seeds and seedlings. We planted broccoli, cauliflower and carrots and sweet potatoes then we planted the corn seeds. I enjoyed doing it.

Then the rain fell and the plants got a good watering. We are keeping a journal about how tall our plants are. That was fun too. I felt happy when we did it.

Our Vegie Garden

First we had to pull out all the weeds. Then our class and Mrs Hoey's class planted lots of vegetables and fruits in the garden beds. I liked planting all the seedlings.

When it gets warmer, we are going to take turns watering the fruit and vegies. I hope the garden has lot of yummy fruit and vegies for us to try.

Last year we made a salad, it was really yummy. I loved it. Last year I was in Mrs Hoey's class and Tammy came every Friday to help us. Tammy has also been helping us this year.
