

PATHS in Room 14

This term in PATHS we have been learning about feelings. We have discussed **ANGER** and looked at what happens to our body when we get angry.

- our face goes red
- you might cry
- you might swear
- you yell and say nasty things
- you might throw things and hurt other people

When we get angry, instead of reacting in this way we need to remember to take a few deep breaths and go for a little walk to calm down.
