

Dear Parents and Carers

**Re: Supporting Your Child's Learning – Personal Use Items**

Please find attached your child/ren's 2026 Personal Use Items list, along with information on how to place an order.

I would like to take a moment to explain why it is essential that students have all of the items listed. In 2024, we introduced the Oxford Maths program in the upper primary year levels, implementing it progressively over the past two years across the school. The growth our students have made using this program—combined with high-quality, hands-on mathematics teaching—has been significant. These resources have had a direct and positive impact on student learning.

We recognise that the Oxford Maths books and some other items on the list represent an additional cost for families. However, without these books—and without the other listed items—it becomes extremely difficult for teachers to deliver the full, high-quality learning program your child/ren are entitled to. Each item on the list has been carefully selected to support the curriculum and maximise your child's progress.

We have worked closely with our supplier to ensure that all items are of good quality while keeping costs as reasonable and affordable as possible.

Your support in purchasing **all** the items on your child/ren's list is genuinely appreciated. It ensures that your child is fully equipped, able to participate in every learning activity, and positioned for success in 2026.

Thank you for your ongoing support of our school and your child's learning.

Regards

Yvonne Darcey  
*Principal, 2025*
