

! Amazing Fire Fighters !

On Monday the 27th of May 2019, fire Fighters from the Welshpool fire station came to our school to teach us about fire safety and what to do if there is a fire.

Firstly, they were in our class teaching us how fires start and what to do and what you shouldn't do, by showing us pictures about it. Some examples were: a match is a tool, not a toy; put your toys at least a metre from the heater so they don't melt and your house won't smell like melted plastic.

Then, we went outside at the car park to see the big, red fire truck and the variety of tools inside it like hoses, drills and much more! The firefighters showed us all their materials.

Next, the class split into two groups using the big fire hose, I really liked using the fire hose. Then finally, we went back into one class, went back to the classroom and now here I am, writing this recount after that amazing, fabulous, awesome time! By Marisa
