

Fire fighters

Today the Monday 27-5-2019, after recess, fire fighters came to our class room 9.

First they told us about fire safety and what their clothes look like. He told us that you can't put your iPad on your bed while it is charging and other things you can't do.

Then we did a fake fire alarm and we had to get on the floor and it was funny when Lexi was trying to open the door.

Next we went to line up outside and then we walked to the fire truck. We looked at the hose and we all got a turn of turning on the hose on and off.
