

## Room 14 Year 2/3

The students in Room 14 have had a very busy term. They have worked hard in Reading, Writing, Spelling and Maths They enjoy school and are very eager to be on chicken duty. They also enjoy going to the Construction Zone. Here are some of the stories they wrote about school.

### My School (By Hazal)

I love school. I think school is amazing. My favourite subject is writing. Writing makes you better at spelling. My favourite activity is playing on the playground. I like to play dodgeball with Mrs Hoey. School is amazing and my favourite games are wink murderer and heads down, thumbs up.

### My School (By Aiden)

I like being the Paths Kid because you get to help the teacher and be at the front of the line. My favourite subject is sport with Mrs Hoey because we get to play dodgeball. The thing I don't like about school is when other kids hurt each other in the playground.

### My School (By Mathew)

I like my school because you have fun. My favourite subject is music. Music is the best because you learn lots of new stuff. My favourite activity is writing. Writing is the best. It is really fun to do. The last thing is looking after the chickens. That is fun.

### My School (Parasto)

I'm in Woodlupine Primary School. I love going to school because you learn and you get better and better at some stuff and you can make lots of friends. There is one thing that I love about school, I love writing and I even like sport. I love writing because you can get better ideas. I love sport because you get fit and healthy. I love recess and lunch because you can play with your friends and you can meet new people. I love my teacher. She is the best teacher. Her name is Mrs Hoey. She is very nice to me. She is a very lovely teacher. I love playing dodgeball with Mrs Hoey and my class. I like playing on the basketball court. I love my principal. He is very nice to me and everyone in the school. I like the people that are very nice but some people are not that friendly. My principal's name is Mr Phoebe and when I go to his office he always has a great smile. He even tricks us and says you are the bad kids right? I say no I'm not! He laughs and when he sees our work he says WOW! He gives us a principal's award sticker, it's gold, shiny and silver. We even get to have a pencil or candy or maybe a picture. Some people hate school but I don't. I hope everyone has fun at school for the whole year.

We all love going to the Construction Zone. We enjoy working together to build lots of amazing things. We also make pictures with the Mosaic tiles.

Oliver and Lachelle made symmetrical pictures with tiles.

We are all having fun in the Construction Zone.
