A 21ST CENTURY SCHOOL

From the Principal

We are finally returning to some sort of normal. Almost all students are back on deck and classes are returning to normal – although it is a new normal. Parents will be allowed onsite in limited numbers next week.

21st Century Science

On Wednesday Dr Andrew Crawford, our resident Scientist, delivered some new plants for our seed production area. This new species, the Pyramid Mulla Mulla, was thought to be extinct until a very small population was discovered in the eastern suburbs of Perth. That is the only wild population of these plants in the entire world.

Given the success of our previous seed production work, our school has been entrusted to help bring the species off the critically endangered list. This is another example of how Woodlupine Primary prepares students for the challenges of the 21st century.

21st Century Assemblies

Our assemblies have become significantly different under the current rules. We announce all certificate winners over the school PA. We film the the class item and upload a link to the classroom home page. Over the last two weeks, both Rooms 9 and 20 have produced tremendous video items for us.

Mental Maths

Our staff have been working very hard to support students to master the basic maths facts and operations that will enable them to learn more complex concepts. I have challenged our students to say their 6 times table in less than 20 seconds. So far the following students have made it into the Tables Hall of Fame:
Skye – current record holder 10.2 sec.
Declan, Shehan, Harry, Olivia and Sukhpreet.

Reports Semester One

Semester one reports will not contain A-E grades due to the Covid-19 Crisis and the subsequent interruption to regular programming. All reports will be issued with comments about student progress and participation.

WOODLUPINE PRIMARY SCHOOL

Parents Onsite Rules

Thanks to all parents and carers for their support of our school during the Covid-19 situation. Next week the rules will relax a little, but we still need parents and carers to minimise their time onsite.

As of next week, parents of students in years one to six will be allowed onsite briefly to pick up or drop off children. However, as government regulations require 2sqm social distancing, parents will not be permitted to enter the classroom blocks at pickup or drop off times. The blocks are already close to the limit with the number of children in those spaces at those times.

Given how well our students have managed without parents coming onsite, this should not present an issue.

Stay Safe and Healthy
